Introduction

Picture by kind permission of Whitbread Plc

Equilux Ltd is the commercial lighting division of the Elstead Lighting group and was formed in September 1999 to allow a more focused approach in the Contract/Specification market.

We employ approximately 120 people, 70 of whom work in our 45,000 sq ft manufacturing site, with the remainder working in our dedicated 35,000 sq ft, sales and distribution centre.

We would always welcome appointments for clients to come and view our facilities for themselves.

We offer in - house design facilities together with our extensive manufacturing abilities, producing approximately 2500 lighting fixtures per week. Our low raw material cost base and 35 years experience allows us to consistently offer quality and value for money. We also work in partnership with a number of leading Italian, French and Spanish manufacturers to the same exacting standards demanded by Equilux.

Much of our work revolves around utilising the specialist manufacturing facilities we have at our disposal, from producing one - off 'bespoke' chandeliers to larger production runs of specials based around our standard product range.

Due to the majority of our products being manufactured by ourselves, we are able to provide a first class service for an industry that is becoming more demanding of its suppliers.

We hold approximately 20,000 standard products in stock, most of which can be despatched within 48 hours when required, with dedicated staff in place to assist where-ever possible.

MANUFACTURING

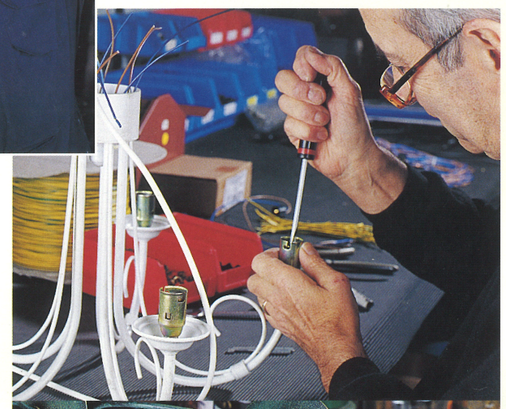
In addition to utilising skilled metal workers to shape and craft the most intricate fitting, we also offer a team of hand patinaters to provide that unique hand finishing, utilise state - of - the - art electronic pressing and forming machinery, through to an automated paint plant which provides an unsurpassed quality of finish.

CONFORMITY

All of our lighting is manufactured to meet and exceed all of the current European legislation. We are members of the Lighting Association and are 'Code of Practice' approved suppliers as well as being Corporate Members of the Guild of Master Craftsmen. These assurances, together with our own internal quality control, ensures that your order will arrive correctly and on time.

TECHNICAL

Our technical department is able to offer low energy conversions utilising switchstart or electronic control gear. We can also modify both classic and modern fixtures with emergency gear if required. Other light sources, including Mercury, Son and Metal Halide can often be integrated should the lumen watt rating need to be increased. A particularly popular option with exterior luminaries.



FINISH

We can provide most luminaries finished in any RAL or BS colour. We have standard hand patinated finished, whilst a blend of the base colours can provide a unique finish if required. Samples of these finishes can be provided on request.

Terms and Conditions

General Terms and Conditions of Trading

PRICES
All prices quoted/listed excluding VAT will be charged at the rate ruling at date of invoice.

ORDERS
All orders placed are preferred to be in writing and clearly signed. Where a telephone order is placed a written confirmation is required. If no written confirmation either by fax or post is issued then the responsibility for accuracy of the order is to be with the buyer.

DELIVERIES/CARRIAGES
Carriage is charged on all orders that have less than Nett Invoice value of £150.00. Carriage to the Isle of Man, Irish Republic, Channel Islands and Scottish Isles is charged at cost. Carriage is also charged on all orders where a next day delivery service is required regardless of value.

MINIMUM INVOICE CHARGE
We have a minimum invoice value of GBP £20 excluding carriage and VAT.

CREDIT ACCOUNTS
For any buyer to open a Trading Credit Account, a bank and two up to date Trade References must be submitted completing our Account Application Form. We reserve the right to withdraw these facilities at any time

PAYMENT/SETTLEMENT TERMS
For all accounts, payment is to be in full 30 Days from invoice. Failure to keep within these terms may lead to withdrawal of credit facilities or even account closure.

RETENTION OF TITLE
Any and all Title of Ownership of goods supplied by Equilux Ltd. Shall remain the sole property of the seller until payment has been made in full. In the event of default we retain the right to recover any goods without notice to the value of any indebtedness including costs.

CLAIMS
Claims for damaged or short delivered goods will only be accepted if the Company is notified within 10 days from the receipt of invoice. Damaged goods/parcels from carrier must be advised upon receipt. Delivery notes signed 'unexamined' are not sufficient to uphold a claim.

RETURNS
Goods ordered by any client and supplied correctly by the company will not normally be accepted for return. In such cases where the company in agreement to accept goods to be returned, a restocking charge, subject to the condition of those being returned, will be deducted at a minimum rate of 30% plus carriage.

DESIGN
We reserve the right to alter our designs or specifications without prior notice. Failure to comply with the installation instructions will render any warranties void.
